SUMMARY OF INVESTIGATION:

On January 6, 2017, at 07:31 hours, Officer Lavia #8538 responded to a burglary from vehicle call in which a FBI agent had several equipment items stolen from the back seat and trunk of his vehicle. Officer Lavia's report stated that he processed the vehicle, and it was later found that he did not dust the vehicle for fingerprints or attempt to swab the vehicle for DNA. In addition, there were several items that were listed in the station entry as stolen from the vehicle, but not listed in the property section of the report.
