Between August 2014 and November 2014, School Resource Officer Chad Moreth #9434 inflated the number of hours he reportedly taught concerning Law Related Education (LRE) while at the Glenn Downs Elementary School. Arizona Department of Education Safety Grant mandates SRO's instruct a minimum of 180 hours per year in exchange for funding the officer's salary. The investigation determined Officer Moreth submitted several inaccurate worksheets documenting his participation in LRE that was never taught.
